

Joint-Use Facilities

● Information and Communication Technology Center

The internet enables us to not only stay connected with the world and collect up-to-date academic information but also convey information about our university to the world. Asahikawa Medical University Campus Information Network (AMEC-Net) is composed of the four subsystems (medical and nursing research subsystem, information processing education subsystem, library information subsystem, and network administration subsystem). The information and communication technology center serves to provide undergraduates with information literacy education, support students and faculty searching for academic information, and convey the information about our university worldwide.

● Clinical Simulation Center

The Clinical Simulation Center aims to help students to attain the following:

- 1 To learn basic clinical skills during preliminary training in pre-medical education and during clinical training – for undergraduates
- 2 To learn general clinical skills in post-graduate clinical training – for interns
- 3 To acquire advanced clinical skills and maintain continuing professional development – for doctors, nurses and co-medicals
- 4 To develop new teaching materials

Summary of Clinical Simulation Center in 2016

	Reservation (hours)	Actual Use (hours)	Number of Users
Computer Assisted Laboratory	1,976	862	4,640
Clinical Skills Laboratory for Diagnosis of Sense Organs	442	361	1,182
Basic Clinical Skills Laboratory	830	670	1,808
Clinical Skills Laboratory for the Heart–Lung Function and Emergency Medicine	1,701	871	3,040
Hand-washing Laboratory	935	597	1,251
Teaching-materials Creation Room	27	36	157

● Support Center for Staff Returning to Work, Staff Wanting Assistance with Child Rearing, and Nursing Care (Nirinso Center)

Working Environment Friendly to Parenting Doctors and Nurses

Nirinso Center, the support center for staff returning to work and for those who want assistant with child-rearing, and nursing care, aims to make the working environment better and assists the doctors and nurses who are on maternity leave, child-care leave, and nursing-care leave in order for them to comfortably make the transition back to work. Composed of the four components (back to work support training, carrier support, child-care and nursing-care support, and sick and convalescent child nursing), the center also provides services such as educational programs, various kinds of seminars and lectures.

Room for sick and convalescent children, Nonno
